### **DETAILED ACTION**

## Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
  - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claim 33 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
- 3. Claim 33 recites the limitation "the gaseous overhead fraction" in lines 2-3. There is insufficient antecedent basis for this limitation in the claim. Claim 33 should be canceled to overcome this rejection.

## Allowable Subject Matter

- 4. Claims 1-32 are allowed.
- 5. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the step of splitting the liquid reflux stream into two streams and adding one into the top of the absorption section of the scrub column and the other into the top of the stripping section of the column, in combination with the other recited steps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed on the attached PTO-892 form disclose gas absorption systems.
